**Pricing:** \$799.99  
**SKU Number:** A509A-G00-11.0  
**Packaging:** includes USB headset  
**UPC:** 780420122611

### Positioning Statement

Dragon NaturallySpeaking 11 Legal is enterprise-ready speech recognition software that allows attorneys and other legal professionals to dictate documents, send email, search the Web, and command and control their PCs — entirely by voice — to reduce transcription costs, document turnaround time and dependency on support staff, while increasing overall productivity and billings.

### Target Market

Large license deployments within law firms and corporate legal departments.

### 25-Word Description

Dragon NaturallySpeaking 11 Legal is speech recognition software that lets users create documents and control their PCs by voice — three times faster than typing — for increased productivity and reduced transcription costs.

### 50-Word Description

Dragon NaturallySpeaking 11 Legal is enterprise speech recognition software lets users create documents and control their PCs by voice — three times faster than typing — to reduce transcription costs, and reliance on support staff, while speeding document turnaround. Designed specifically for the legal community, Dragon Legal includes a special language model to help you achieve optimal out-of-the-box accuracy when dictating legal terms, automatically formats legal citations, and supports third-party correction.

### 100-Word Description

Dragon NaturallySpeaking 11 Legal is enterprise-ready speech recognition software lets legal professionals create documents and control their PCs by voice — three times faster than typing — to reduce transcription costs and increase staff productivity. Designed specifically for the legal community, Dragon Legal includes a special language model to help you achieve optimal out-of-the-box accuracy when dictating legal terms, automatically formats legal citations, and offers third-party correction features to speed document turnaround and reduce reliance on support staff. Create custom voice commands to build and format document templates. Dictate into a digital voice recorder; Dragon will automatically transcribe the audio files upon connection to a PC. Dragon Legal even provides security features, configuration options, and administrative tools for managing large user networks.

## Key Benefits

### FAST, ACCURATE DICTATION

Dragon NaturallySpeaking Legal is the ideal solution for attorneys and other legal professionals who want to work faster and smarter. Dictate naturally to create contracts, briefs, court documents, email messages and more — three times faster than typing — with up to 99% recognition accuracy.

## **DESIGNED SPECIFICALLY FOR THE LEGAL USER**

Designed specifically for the legal community, Dragon Legal includes a special language model to help you achieve optimal out-of-the-box accuracy when dictating legal terms. Import custom word lists that reflect your clients and areas of specialty and share them across the enterprise. Automatically format legal citations. And enjoy faster document turnaround — with less reliance on support staff — using Dragon Legal's third-party correction features.

## **WORKS WITH MOST WINDOWS-BASED APPLICATIONS**

Use your voice to dictate, edit, and control virtually any Windows application, including the Microsoft® Office suite, Corel Word Perfect, and most case management programs.

## **CONVENIENT VOICE SHORTCUTS**

Use simple voice commands to create files, send email, schedule meetings, open and close applications, save and convert documents, and search the Web or your desktop faster than ever before.

## **MORE PRODUCTIVITY ON THE GO**

Use a Nuance-approved digital voice recorder from anywhere, at anytime to dictate briefs, contracts, correspondence, and more. Dragon automatically transcribes text when you connect to your PC. Wireless microphone support delivers added convenience.

## **NO MORE TRANSCRIPTION BOTTLENECKS**

Speed document turnaround and reduce dependencies on support staff with third-party correction features. An Auto-Transcribe Folder Agent manages the transcribed text and synchronized audio flow of digital voice recordings to streamline third-party review and correction. A Roaming User feature supports dictation and third-party correction from different network locations and computing devices while ensuring centralized control of master user files.

## **TIME-SAVING MACROS**

Easily create special voice commands that let you build and format document templates, insert frequently used text and graphics, or automate common workflow tasks like saving a document under a certain name, printing it, and attaching it to an email.

## **IDEAL FOR ENTERPRISE DEPLOYMENTS**

Centrally manage voice profiles, custom vocabulary, feature access, and multiple installations over a network. Robust security features and administrative tools make Dragon enterprise ready.

## **SECTION 508 CERTIFIED**

Meet government-mandated accessibility requirements for workers with disabilities. Prevent repetitive stress injuries and keep more employees on the job.

## **System Requirements**

The install process checks that your system meets the minimum requirements; if they are not met, Dragon NaturallySpeaking will not be installed.

- **CPU:** minimum 1 GHz Intel® Pentium® or equivalent AMD processor or 1.66 GHz Intel® Atom® processor. *We recommend 1.8 GHz Intel Dual Core or equivalent AMD processor. (IMPORTANT: SSE2 instruction set required)*
- **Processor Cache:** minimum 512 KB. *We recommend 2 MB.*

- **Free hard disk space:** 2.5 GB (3.2 GB for localized non-English versions)
- **Supported Operating Systems:**
  - Microsoft Windows 7, 32-bit and 64-bit
  - Microsoft Windows Vista SP1 and SP2, 32-bit and 64-bit
  - Microsoft Windows XP SP2 and SP3, 32-bit only
  - Windows Server 2003 and 2008, SP1, SP2 and R2, 32-bit and 64-bit
- **RAM:** minimum 1 GB for Windows XP and Windows Vista, and 2 GB for Windows 7 and Windows Server 2003/2008. *We recommend 2 GB RAM for Windows XP and Windows Vista, and 4 GB for Windows 7 and Windows Server 2003/2008 64-bit.*
- Microsoft Internet Explorer 6 or higher (free download at [www.microsoft.com](http://www.microsoft.com))
- Creative® Labs Sound Blaster® 16 or equivalent sound card supporting 16-bit recording
- DVD-ROM drive required for installation
- Nuance-approved noise-canceling headset microphone (included in purchase). See details at [support.nuance.com/compatibility/](http://support.nuance.com/compatibility/) (includes Bluetooth microphones, recorders, and Tablet PCs).

Note: An internet connection is required for product activation (a quick anonymous process).

\*This edition of Dragon does not support dictation directly into Electronic Medical Record (EMR) Systems. For EMR support, please use Dragon Medical Edition.
